Gian Carlo Yabut

Full Stack Developer

Metro Manila, National Capital Region, Philippines

Experience

Macquarie Telecom

Team Leader Billing Development

April 2017 - Present (9 years 2 months)

Nimbyx

Full Stack Developer

December 2015 - February 2017 (1 year 3 months)

36th Flr. Ecotower Bldg. 32nd st., BGC, Taguig

Acts as a lead for a group of 2 that develops Dental Systems using technologies such as MVC, Web API 2, Entity Framework and Azure (Web Apps Deployment, blob storage and SQL Azure) in an Agile and TDD environment. Also creates responsive web apps using Angular JS, bootstrap, CSS3 and HTML 5. Currently acts as the Scrum Master managing the team's tasks (including the estimates), Sprint Planning, Sprint Retrospective and Sprint Demo for the project. I am also included in a team that sets all the guidelines that will be used thru all the projects within nimbyx.

Chamonix IT Solutions (Offshoring to Emapta)

.Net Developer

June 2014 - December 2015 (1 year 7 months)

12th floor, IBM Plaza BLDG. Eastwood City, Libis, Quezon City

Developed eHealth systems that caters all public and some private hospitals in Australia using WCF and MVC in an Agile and TDD approach. This includes sharing of the following Patients details, diagnosis, reports, etc thru a Secured Messaging solution, we also incorporates all the solutions we created to a 3rd party solution that the Health Government of Australia provided using MVC and WCF as the service. I was assigned on the different parts of the SDLC cycle (Data Gathering, Creating Specs, Development, Unit Tests, Release and Deployment). We also developed a Mobile app for the eHealth system using Xamarin.Forms that runs on both Android and IOS platforms that uses Web Api 2 as the service. Developed a SAAS HR system that provides a very dynamic system for each user as the system allows the users to create their own fields, rules, etc using Web Api 2 and AngularJS.

Loanworks Technologies

Analyst / Programmer

September 2012 - June 2014 (1 year 10 months)

Duties include developing projects using C#.net, ASP.net, MVC3, Javascript(Ajax, JQuery), Telerik, XML, JSON, CSS, CSS3, HTML, SSRS, MS SQL Server 2k8 R2 in an agile and object oriented approach. Developed multiple modules for Macquarie Telecom Australia Billing System including developing services for the automation of monthly billing runs; has participation/contribution on around 80% of our team tasks due to completing my own tasks ahead of schedule. Develop a solo project for client usages reports using MVC3. Has been promoted twice and a consistent nominee for the "Employee of the Month" award.

Metrobank

Web Developer

July 2011 - August 2012 (1 year 2 months)

Sen. G. Puyat Ave., Makati City

Duties include developing projects using C#.net, ASP.net, Javascript(Ajax, JQuery, DOJO, Handlebars), Ajax Control Toolkit, XML, JSON, CSS, CSS3, HTML, SSRS, MS SQL Server 2k8 and 2k8 R2 in an object oriented approach. Developed solo projects together with its database design: Metrobank Careers Page (<https://careers.metrobank.com.ph/>) with its Back End System and Case Management System for All Employees of Metrobank. Part of a team that developed: Daily Time Record and Organizational Chart / Hierarchy System for All Employees of Metrobank. Has contribution on 75% of the projects that our team developed. Also worked on solo projects to migrate current system data to the new system database.

Seawolf Information Solutions Corporation

Software / Web Developer

July 2010 - July 2011 (1 year 1 month)

Congressional Ave., Quezon City

Duties include developing projects using VB.net, PHP, Javascript(Ajax, JQuery), Sybase SQL Anywhere, MySQL, MS SQL Server 2008 R2, HTML, CSS, CSS3, JSON, XML, Web Service and SOAP in an object oriented approach. Developed multiple modules for a banking system (Triune Deposit and Loans Solution) and also worked on solo projects to migrate current system data to the new system database. System is deployed in Aurora Bank, Rural Bank of San Mateo and Cavite Rural Banking Corporation. Developed

Auto It Scripts used for testing different scenarios of the banking system.
Developed www.localroam.ph, a group buying site.
